Presenters

PROFESSOR HANNAH DAHLEN

Hannah Dahlen is a Professor of Midwifery at the University of Western Sydney with an international reputation as an outstanding midwifery scholar. Hannah has published over 200 papers and book chapters, despite only being an active researcher for the past 10 years and maintaining clinical practice.

Presenting: What have we learnt about the influence that pregnancy and birth have on the microbiome?

DR SUSAN ARENTZ

Susan has over 20 years' experience in woman's health. She provides expert consultancy to organisations such as the World Naturopathic Federation and is an adjunct research fellow at NICM.

Presenting: Applying a personalised holistic approach to healthcare for each phase of life from preconception to adulthood.

LEAH HECHTMAN

Leah is an experienced and respected clinician and has been in private practice for over 20 years. She specialises in fertility, pregnancy and reproductive medicine and holds fellowships with many International organisations. She sits on multiple Scientific Advisory boards and is a Past President of the NHAA.

Presenting: Conception and the microbiomes.

STEFANIE VALAKAS

Stefanie is recognised as a leading women's health & fertility dietitian and nutritionist. She specialises in issues such as PCOS, endometriosis, hypothalamic amenorrhoe and thyroid issues.

GERALD QUIQLEY

Gerald is a Master Herbalist, prominent media health commentator and Australia's most well-known pharmacist.

ANGELO DI SAPIA

Angelo is a university-trained naturopath with a wealth of experience in formulation, regulatory affairs, manufacturing, quality and laboratory testing.
